

eTailPet's mission is to empower retailers in this channel and transform the demographics of its customer base.

Buy online, pick-up in store has been dubbed the amazon antidote. Successful brick & mortar retailers today are those integrating a digital experience for their customer with their physical in-store experience. eTailPet is a cloud based e-commerce platform built by a retailer, for retailers. We enable large and small retailers alike to offer online sales for in-store pick-up. Through the platform we are digitizing the inventory in our neighborhoods, making it more convenient for pet parents in your area to find you.

Easy As 1-2-3 To Get Started

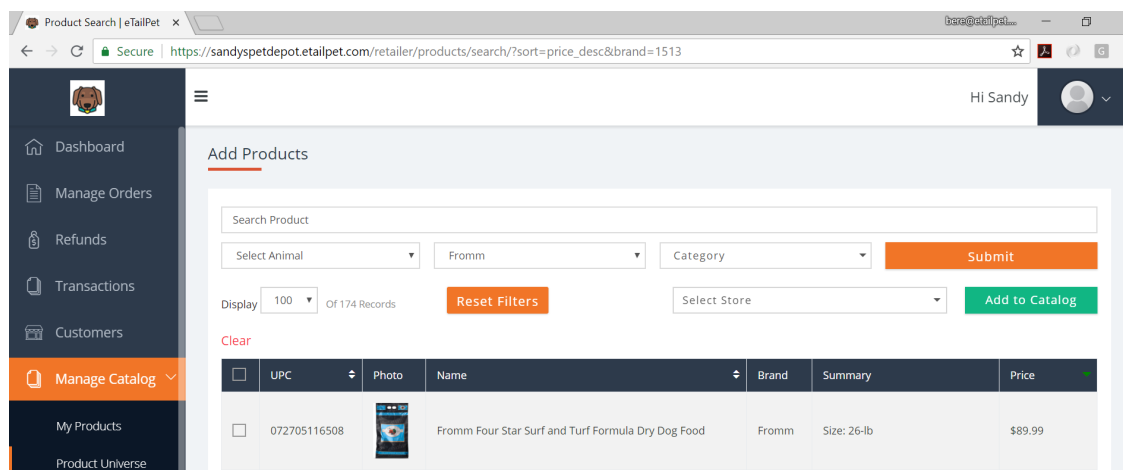

- No contracts, month to month pricing
